ABOUT MATCH

The Energy service
company of choice.

Match Energy Group was established to deliver world-class products, services and solutions to oil and gas companies. Our operating companies, Match Consulting Ltd, incorporated in Nigeria and Match Energy Services to incorporated in the UK together offer world-class solutions to oil and gas companies through our in-house team, a strong network of OEMs and technical partnerships with renowned international organisations.

VISION

Our vision is to be the best service company of choice in the African oil and gas industry.

MISSION

Our mission is to provide customer-specific solutions to our oil and gas clients leveraging our international team, OEM relationships and technical partnership whilst also developing world-class in-country capacity and expertise.

Ultimately we aim to MATCH our client problems/challenges to tailored solutions.

How we work

Integrity

We commit to the highest ethical standards, ensuring honesty and openness in all our dealings. We believe in building trust with our clients and partners through clear communication.

Safety

Safety is at the heart of our business. We are dedicated to implementing rigorous safety measures and protocols to safeguard our workforce, clients, and the environment.

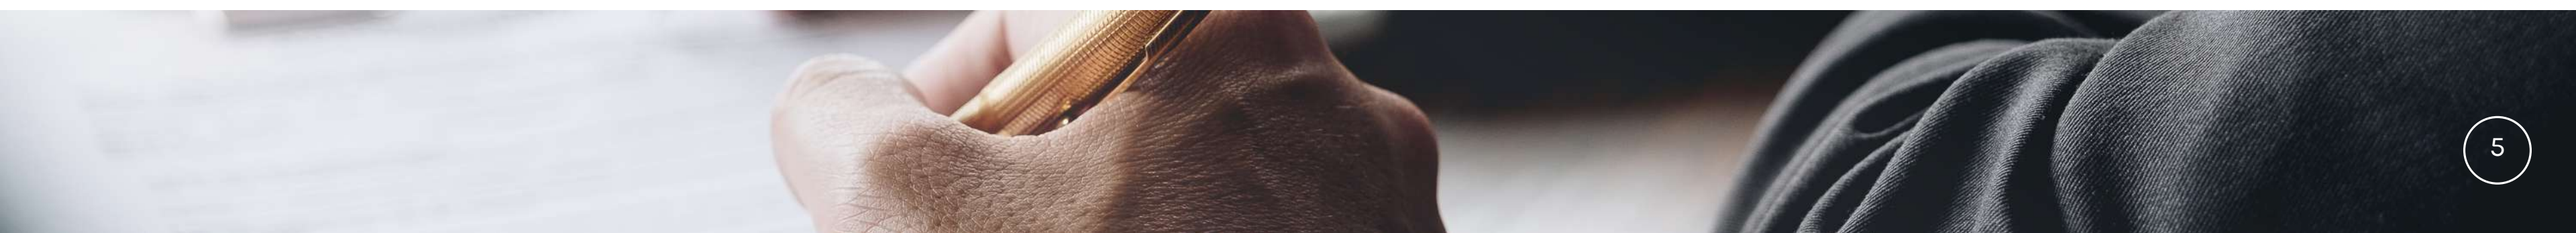

Collaboration

We value the power of collaboration and foster strong partnerships with both local and international stakeholders.

Sustainability

Our operations and solutions are designed to minimize environmental impact and contribute positively to the communities we serve.

Our Value to You

The synergy of our operations in the UK and Nigeria, uniquely positions us to solve complex problems for our customers...

Leveraging our in-depth understanding of Nigeria's market dynamics and cultural intricacies, combined with our broad international insights, we excel in procuring advantageous commercial and technical partnerships globally. Our goal is to translate these strategic collaborations into tangible benefits for our clients, offering them superior, cost-effective solutions that set new standards in excellence and value.

Message from the CEO

Match Energy Group, where our ambition is to lead the industry and address the forthcoming energy challenges in Nigeria with distinction.

At Match Energy Group, we are passionate about providing innovative and tailored solutions that stand out for their quality and cost-effectiveness. Our strength lies in the dynamic collaboration between our Nigerian base and our UK counterpart, reinforced by our expansive network of Original Equipment Manufacturers (OEMs), stockists, and technical allies, coupled with our significant local expertise. Our mission is steadfast: to craft solutions that resonate with our global partnerships and local acumen, ensuring that our offerings are not just solutions, but benchmarks of excellence.

We are guided by core values that emphasize safety, compliance, and sustainability in every facet of our work, be it offshore or onshore. We are committed to the well-being of our team, the preservation of our environment, and the interests of our clients, which are paramount in our operations. Rest assured, our dedication to developing precise, impactful solutions to meet your unique needs is relentless. We are excited about the prospect of partnering with you to sculpt the future of the energy industry, setting new standards and achieving mutual success.

TOMOTAYO ALABI

CEO, Match Consulting

Our Partners

Whether directly or indirectly, we are proud to have served industry leaders in the Energy Space.

Sustainability at Match.

At Match Consulting, sustainability isn't just a policy; it's the heartbeat of our mission and the core of our business ethos. In the dynamic oil and gas sector, where the stakes for environmental stewardship are incredibly high, we stand as a beacon of responsible leadership, embedding eco-conscious practices across all levels of our operation.

Our holistic approach to sustainability goes beyond mere compliance; it's about setting new benchmarks for environmental excellence. By focusing on reducing our ecological footprint, we not only enhance operational efficiency but also champion the wise use of resources.

But our vision extends further. We infuse sustainability into every project we embrace and every partnership we forge, ensuring it is woven into the fabric of our strategic thinking and daily activities. At Match Consulting, we're not just responding to a trend; we're shaping a future where business success and environmental respect go hand in hand.

Services

We deliver premier products and equipment, complemented by comprehensive after-sales support designed to swiftly address issues, enhance system performance, and preempt potential problems.

Our offerings are meticulously crafted to align with our customers' specific needs. We engage closely with each client to grasp the unique demands of their projects or assets, ensuring that we consistently provide the best possible solution to overcome every challenge.

➤ Piping and Fittings

➤ Procurement and Supply Chain

➤ Technical Consultancy

OUR SERVICES

OCTG

We supply an extensive range of high-quality casing and tubing, drill pipe, connections and pipe accessories for all types of drilling activities. Leveraging our partnership with world-class European and Asian OCTG mills we are able to offer both API and premium-grade casing, tubing and connections. Our services include:

- Supply of quality OCTG and Connections
- Threading of Casing and Tubing
- Repair and rethreading of casing and tubing
- Inspection Services
- Storage and inventory management of casing and tubings

OUR SERVICES

Line Pipes

We supply line pipes in various grades and diameters for gathering lines and gathering systems construction. Our pipes are ideal for corrosive environments, low and high temperatures, and high pressure. We partner with internationally recognized and approved mills to offer seamless pipes, ERW welded and LSAW pipes. Our partner mills are ISO-9001 listed and American Petroleum Institute (API) accredited
